

## **REQUIREMENTS FOR PROJECTED IMAGE COMPETITIONS**

**Image size to be no more than 1400 max x 1050 max pixels (including any borders)**

(The competition software will resize oversized images but this may result in reduced quality image display. Entrants are, therefore, encouraged to send in correctly sized images.)

**Images to be in the sRGB colour space.**

(The software expects images to be saved in the sRGB colour space in line with the projector. Submitted images will be automatically converted to sRGB but entrants are encouraged to send in sRGB images otherwise the projected image may be different to expected. For example, if the image was in Adobe RGB there may be a slight desaturation of the image. If there was no working space in the image, there may be a change in the colours to what was expected).

**Each image to be titled and saved in the JPEG format ie. *Title.jpg***

(No extra information other than the title is required. Images in any other format will be excluded. If you are a 'macmail' user, this mail system will alter the format so you need to send images directly from your ISP/email home site or in a 'compressed' folder).

**ALL images to be sent to the club competition email address**

**[bccpdicomp1@gmail.com](mailto:bccpdicomp1@gmail.com) no later than midnight on the Sunday before the competition night. Entries will be acknowledged but if you don't get an acknowledgement before the deadline, the entry may not have been received and you should contact the Competition Secretary to check.**
